Dr. Manju Jugdar, Dr. Asha Bengle.

We are glad to invite you for the first of its kind academic program to be held prior to our legacy of Pune International marathon. PIMT and CACPE in collaboration will host this one day international symposium and we seek the presence of all the stakeholders. The program is so designed that our intention of understanding the science of marathon will be justified.

The program includes invited speeches by the expert professionals, panel discussion with renowned coaches, athletes and organizers. We also intend to educate the amateur as well as professionals at the hands of some of the world renowned medical professionals.

1st Pune International Marathon Symposium 5th December 2014

Understanding Marathon Science
First International Symposium

Pune International Marathon Understanding Marathon Science

Main Theme: Understanding Marathon Science

Symposium Program:

• About the Symposium

The astonishing performance of the athletes is underpinned by a strong foundation of sports sciences, coaching, and pedagogic expertise which we wish to showcase. The symposium would not only demonstrate excellence in sports and exercise research and practice but will also stimulate local and national public engagement with sports related sciences

- Acknowledging the sustained efforts made by the Pune Marathon.
- First initiative of the Marathon Trust at the international level- Scientific and technical basis
- Educate those involved
- Provide a platform for exchange of ideas
- Highlight the socio- cultural impact and to promote Olympic

This is the first of its kind symposium that aims to celebrate marathon running and sports science. The objectives of which are:

1. To exchange sports science, clinical and pedagogic information
2. To promote education about science and technology
3. To encourage multi- disciplinary approaches
4. To network among researchers, coaches, clinicians and practitioners
5. To present cutting edge research and development
6. To secure public engagement by young people and ordinary members of the community
